About Us

Brief Overview

The company was founded in the month of March 2017. Reign began as a general works contractor in the same year. Over the years the company has undertaken many challenging projects and accumulated skills, know-how and experiences in design and builds solutions, project management and related engineering works.

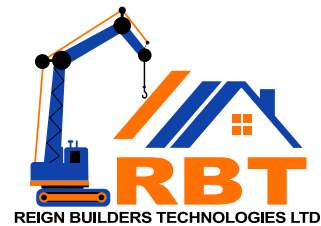

Reign Builders Technologies Ltd is a leading road safety solutions provider specializing in the supply and installation of reflective thermoplastic road markings, road signs, guardrails, and associated road furniture, including reflective road studs (cat-eyes) and handrails.

We have played a central role in road safety implementation for major infrastructure projects nationwide, with a proven track record in delivering to the highest standards of quality and safety.

Contact Us today for your project execution.
